Day-of-Week Consumption Patterns

Total Watch Time (Minutes) by Day

Avg Session Duration (min)

⚠ Monday is lowest

6,796 min total — 61% below Saturday. Only 957 sessions recorded.

★ Saturday peaks

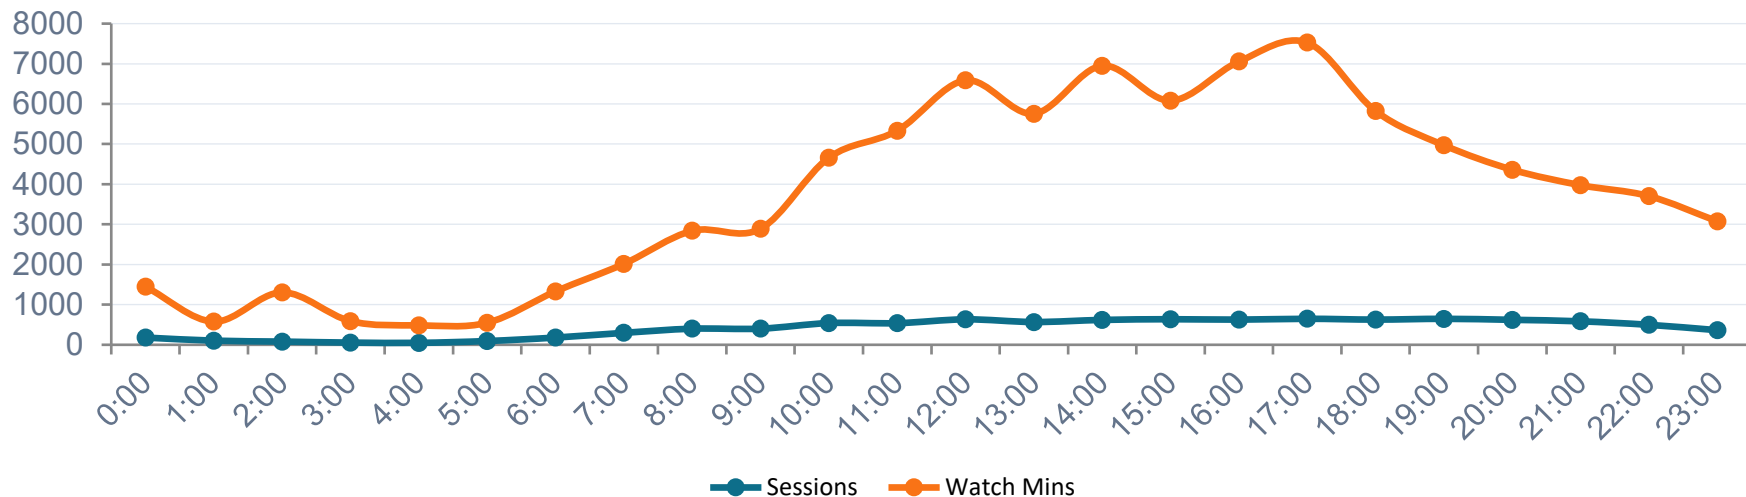

17,440 min total. Avg session = 10.7 min (longest of the week).

↑ Thu–Sat golden zone

Highest engagement window — ideal for premium/exclusive content.

Intraday Viewing Behaviour (SA Time)

Sessions & Watch Minutes by Hour of Day

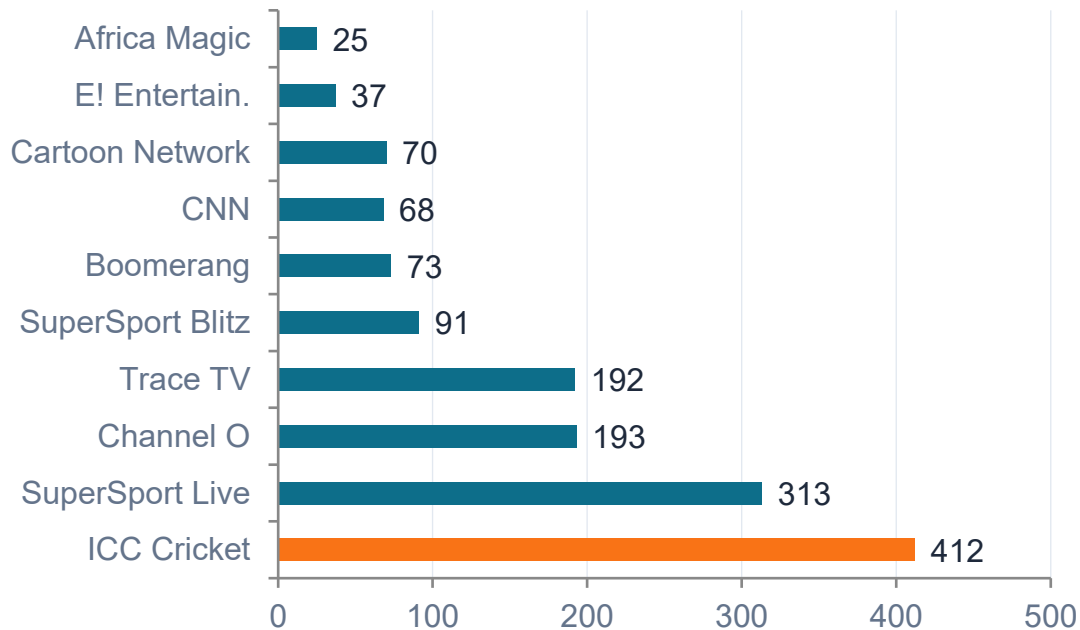

DEAD ZONE 01:00–05:00

MORNING 07:00–09:00

PEAK PRIME 12:00–18:00

Top Channels by Watch Time & Sessions

Watch Hours (Top 10 Channels)

Category	Channels	Share	Avg/Sess ion
Sports	SuperSport, ICC Cricket	54%	14.2 min
Music/Enter tainment	Channel O, Trace TV, E!	25%	11.5 min
Kids / Animation	Cartoon Network, Boomerang	10%	5.7 min
News	CNN	5%	8.1 min
African Drama	Africa Magic	3%	1.7 min
Other	M-Net, Vuzu, SawSee	3%	3.0 min

What Drives Viewership Consumption?

1 Live Sports Events

ICC Cricket World Cup drove 24,728 min — 28% of ALL watch time. Live events create appointment viewing that cannot be replicated.

2 Time of Day

Prime-time 12:00–18:00 accounts for 58% of sessions. Mornings (07:00–09:00) show a commuter spike. Midnight–05:00 sees near-zero activity.

3 Day of Week

Saturday generates 2.6× more watch time than Monday. Weekend "lean-back" behaviour drives both longer sessions and more return visits.

4 Content Genre

Sports + Music/Entertainment = 79% of watch time. Passive, long-form content keeps users engaged far longer than short clips.

5 Age Group

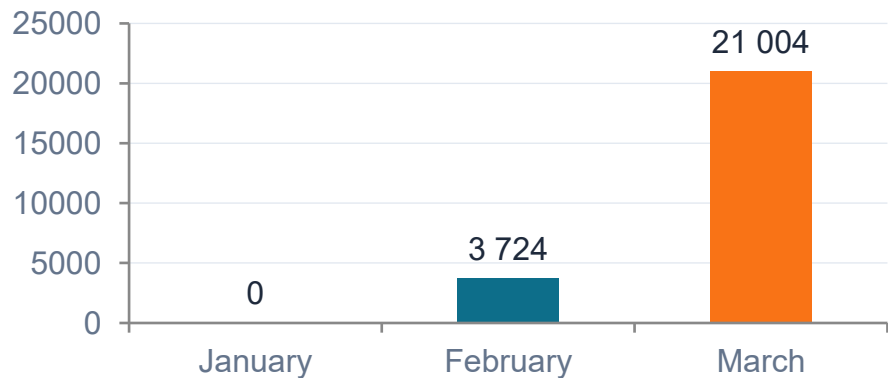

25–44 year-olds drive 65% of all sessions. They have disposable income AND tech fluency — the ideal CVM target segment.

6 Geography

Gauteng alone contributes 37% of sessions and watch time. Top 3 provinces (GP, WC, KZN) = 72% of viewership — concentration opportunity.

Sports Content: The Dominant Growth Driver

ICC Cricket World Cup – Monthly Watch Time

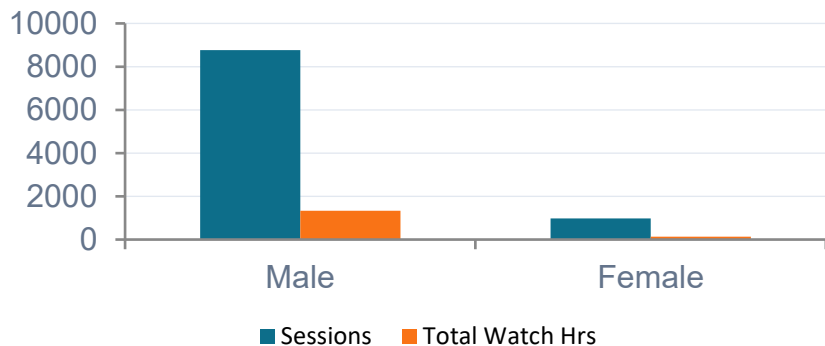

Sports Event Impact Analysis

Metric	Jan	Feb	Mar
Total Sessions	2,199	2,980	4,816
ICC Sessions	0	204	1,261
ICC % of Sessions	—	6.8%	26.2%
Total Watch (hrs)	283	385	830
ICC Watch (hrs)	0	62	350
ICC % of Watch Time	—	16.1%	42.2%

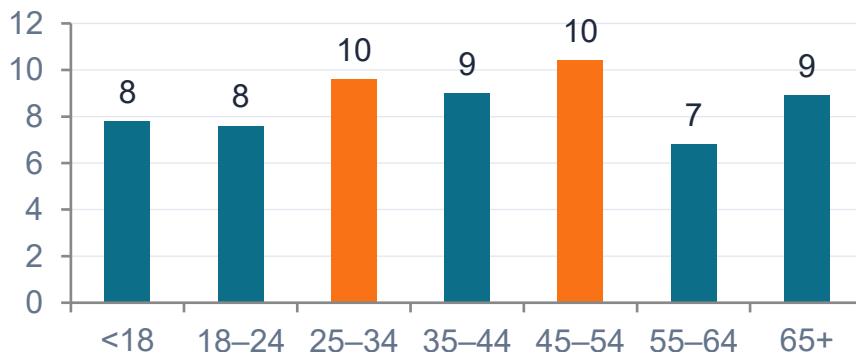

🔧 ICC Cricket accounted for 42% of March watch time — proving that premium live sports events are BrightTV's single biggest consumption catalyst. Strategic sports rights acquisition should be a top CVM priority.

Consumption by Demographics

Sessions & Watch Time by Gender

Avg Session Duration by Age Group (min)

Male Dominance

90% of sessions from male subscribers. Female subscribers have strong engagement (8.1 min avg) — an underserved growth segment.

45-54 Most Engaged

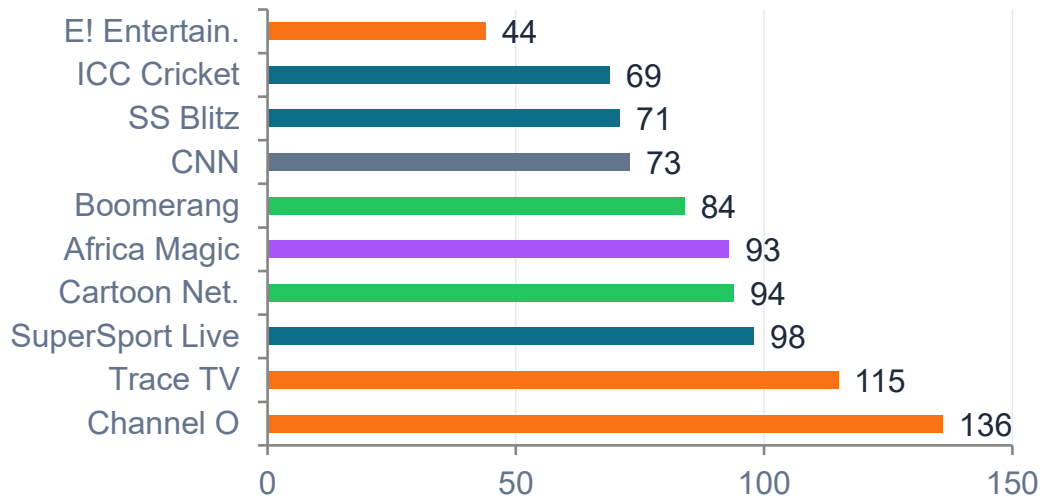

Highest avg session: 10.4 min. Despite being a smaller group, they watch longer — valuable for premium subscriptions.

25-34 Core Audience

41% of all sessions. Largest cohort with 9.6 min avg — digital natives who respond well to personalised content.

Understanding Low-Consumption Days

Monday: Sessions by Channel (Low Day)

Music dominates Mondays

Channel O & Trace TV = 43% of Monday sessions.
Subscribers shift to casual, mood-based viewing on low-energy days.

Kids content spikes

Cartoon Network & Boomerang = 17% of Monday sessions
— suggesting school-aged viewers have more free time on Monday afternoons.

Sports still present

SuperSport & ICC Cricket still pull 20% of sessions — even on slow days, sports fans are loyal. Event-based promotions can activate them.

Content Recommendations: Boosting Monday Consumption

Music Monday

- Curated music playlists & top chart countdowns
- Artist specials & behind-the-scenes exclusives
- Partner with Channel O & Trace TV for Monday premieres

Kids Corner

- After-school animated marathons (14:00–18:00)
- Weekly new episode drops on Monday to drive return visits
- Boomerang & Cartoon Network curated blocks

Sports Replays & Highlights

- Weekend match replays & best-of compilations
- Monday Rewind: Top 10 sporting moments of the week
- Pre-match previews for upcoming mid-week fixtures

Movie/Binge Drops

- Release new VOD titles every Monday morning
- "Monday Movie Club" themed collections
- M-Net & Vuzu Monday premieres to drive platform visits

Push Notifications

- Targeted Monday alerts for personalized content
- Re-engage inactive subscribers with "We missed you" nudge
- Morning & afternoon reminders for Monday highlights

Monday Promotions

- Flash discounts on add-on packs (Mon only)
- Double data / bonus viewing minutes incentive
- Referral bonus activations on lowest-traffic day

Growth Initiatives

Recommendations to grow BrightTV's subscriber base

01 Content & Licensing

02 Re-engagement

03 Geographic Expansion

04 Personalisation

05 Partnerships & Bundles

06 Data & Analytics

Initiative 1 & 2: Content Licensing + Re-engagement

01 Premium Sports & Content Rights

- **Why: Sports drove 54% of watch time & triggered the March surge**
- Secure more live cricket, football (PSL, Bafana Bafana), rugby rights
- Negotiate exclusive local content (SA music, drama, reality shows)
- Weekly "event drops" to create appointment viewing habits
- **KPI: 30% increase in avg monthly watch time per subscriber**

02 Re-engage Inactive Subscribers (18.4%)

- **Why: 989 registered users never watched — zero revenue but active contracts**
- Trigger win-back email/SMS campaigns with personalised content links
- Offer 7-day free premium trial to inactive users (sports event aligned)
- In-app push on first login after 30 days of inactivity
- Identify "at-risk" churners (low frequency) with predictive scoring
- **KPI: Reduce inactive base by 50% within 6 months**

Initiative 3 & 4: Geographic Expansion + Personalisation

03 Geographic Targeting & Expansion

- Gauteng = 37% of sessions. Double-down on GP with targeted digital ads
- KZN & WC show strong engagement — localise content (Zulu, Xhosa, Afrikaans)
- Northern Cape is underserved — explore affordable mobile-first packages
- Partner with mobile network operators in lower-density provinces for zero-rated data
- Community screens / township activations in Limpopo & Mpumalanga
- **KPI: 20% subscriber growth in non-Gauteng provinces by FY end**

04 Personalisation & Recommendation Engine

- Leverage viewing history to surface next-best content for each user
- Segment users by: genre preference, device, time-of-day, demographics
- "Continue Watching" and "Because You Watched" carousels on homepage
- Personalised CVM nudges — e.g. sports fan? Alert on upcoming live events
- A/B test content thumbnails and messaging by age/gender cohort
- **KPI: +25% session frequency per user through personalisation**

Initiative 5 & 6: Partnerships + Data-Driven CVM

05 Strategic Partnerships & Bundle Offers

- Mobile operator bundles (Vodacom, MTN, Telkom) — include BrightTV with data
- Smart TV / decoder pre-load partnerships (Samsung, LG, MultiChoice)
- Bank / fintech rewards: BrightTV subscription as a loyalty perk
- Student bundles: discounted packages for 18-24 segment (fastest-growing)
- Social media integration: enable Twitter/X & Instagram live reactions
- **KPI: 3 strategic partnerships signed within H1 of FY**

06 Data & Analytics for CVM Targeting

- Build churn prediction model using session frequency, duration drops, channel mix
- Social media handles in dataset: activate social listening & influencer outreach
- Monthly cohort analysis: track new vs returning subscriber growth rates
- Content ROI dashboard: watch time per rand of content cost
- Real-time event dashboard for live sports: surge demand planning
- **KPI: CVM team has weekly data-driven targeting reports within 30 days**

12-Month CVM Growth Roadmap

Q1 (Now)

- Re-engage 989 inactive subscribers
- Launch Monday content programming
- Push notification campaigns live
- Data dashboards & churn model built

Q2

- Sports rights acquisition begins
- Personalisation engine v1 launched
- Mobile operator bundle negotiations
- Geographic campaign: KZN, WC, EC

Q3

- Student & youth bundles launched
- Influencer / social media activation
- Kids content strategy fully deployed
- A/B testing personalisation at scale

Q4

- Review KPIs vs targets
- Renew high-performing content deals
- Scale winning acquisition channels
- Plan next FY content calendar

Untapped Opportunity: Female Subscriber Segment

10%

Female Share of Profiles

8.1 min

Avg Female Session

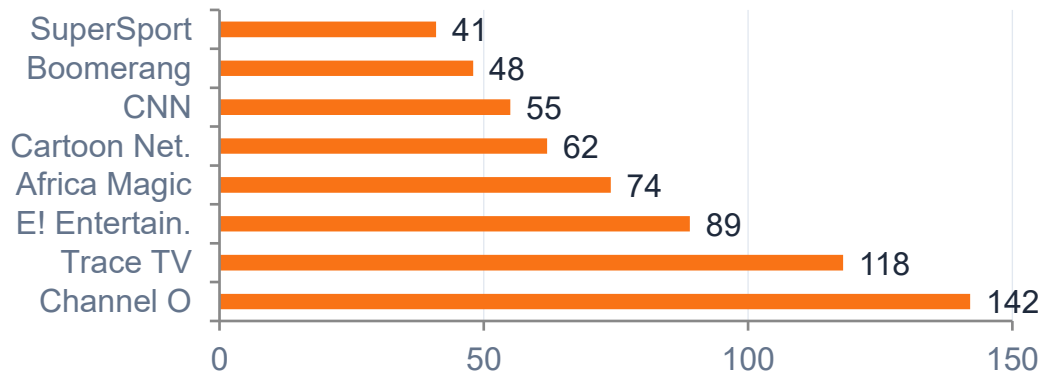

7.9 min

Avg Male Session

90%

Male Share of Sessions

Female Viewership by Channel (Estimated)

Growth Actions

- Launch "Women's Wednesday" content theme
- Commission African female-led drama & reality content
- Targeted social campaigns on Instagram & TikTok
- Partner with beauty, fashion & lifestyle brands for co-marketing
- Offer female-focused content packs at competitive price points

Key Takeaways for the CVM Team

1 Sports is king — protect & grow it

ICC Cricket alone delivered 28% of Q1 watch time. Live sports rights acquisition is the single highest-ROI investment BrightTV can make.

2 Fix Monday — it's leaving money on the table

Monday watch time is 61% below Saturday. Targeted content drops, Monday deals and push campaigns can rapidly close this gap.

3 Re-activate 989 dormant subscribers first

These users have already signed up. Win-back campaigns require minimal acquisition cost and can yield immediate revenue uplift.

4 Female segment is massively underserved

10% female share of profiles vs equal engagement quality. Tailored content and marketing to women can double the addressable audience.

5 Prime time = 12:00–18:00, prime day = Saturday

Maximise promotional spend and content premieres during these windows. Consider Saturday exclusive drops for premium subscribers.

6 Gauteng leads; other provinces need attention

63% of subscribers are outside Gauteng but receive proportionally less. Localised content and affordable rural packages are high-growth levers.

The Road to Subscription Growth

starts with data-driven decisions.

 Approve Q1 re-engagement campaign targeting 989 inactive users

 Initiate sports rights discussions for upcoming PSL & international cricket season

 Commission full CVM data platform within 30 days

 Pilot "Monday Campaign" content strategy for 4 weeks & measure uplift

 Open partnership conversations with Vodacom, MTN & Samsung
